# The Gladiolus

The  
Gladiolus

A Price List of  
Carefully Selected  
Varieties

MARY LOUISE HAWKINS

Lancaster, Mass.

## Warranty

I WILL replace stock defective when you receive it, if claims are made at once. I will replace named stock that proves untrue. I will not be responsible for your crop, save as noted above.

You have the satisfaction of buying from the choicest, sturdiest stock of Gladioli in the United States, grown under *natural conditions*.

I do not sell my cut flowers because the florists demand too much foliage, therefore my bulbs are vigorous.

No orders accepted for less than one dollar.

*Mary Louise Hawkins*  
Lancaster, Mass.

DURING a period of many years of cultivation and acquaintance with the leading Gladiolus exhibitors throughout the country I have acquired a great number of choice varieties. Many of the following were exhibited for the first time in 1916. Their beautiful colorings and unique characteristics attracted universal attention. A large number of them received the highest awards at the various horticultural shows. While the quantities which I can offer are not extensive, you may have the assurance that the quality and variety are of the highest character.

		Each	Per Dozen
<b>Adeline Patti</b>			
Large, dark violet		\$0.35	\$3.50
<b>Aeolian</b>

### Mary Fennell

Stem — Straight, about forty-two inches in height.

Flowers — Large and finely placed on stem.

A strong, robust grower.

Above is a true reproduction, three-quarter size.

### Daisy Rand

Stem — Straight and of medium height.

Flowers — Medium size, spaced well apart on stem,  
making it particularly attractive as a cut  
flower.

Above reproduction is three-quarter size and exact  
as to color.

		Each	Per Dozen
<b>Red Emperor</b>	Dark red, extra large. (Awarded first prize for red, American Gladiolus Society Exhibit, 1916) -----	\$1.00

Mary Fennell	.25	2.50	18.00
Master Wietse	.10	1.00	6.00

## Primulinus Hybrids

A new and beautiful race of Gladiolus has been produced by using the fine yellow species "Primulinus," or "Maid of the Mist," in crossing with the older existing strains. The varieties resulting are distinguished mainly for their fine and varying tints of yellow, graceful, slender stems and airily poised and hooded flowers.

No other race of Gladiolus contains such varied and beautiful yellow, orange and saffron colors.

The following varieties are new and especially desirable for color combinations :

	Each
<b>Alice Tiplady</b>	
Large flower of beautiful orange saffron color .....	\$0.35
<b>Angola</b>	
Fine salmon pink .....	.40
<b>Butterfly</b>	
Large, pale salmon yellow .....	.60
<b>Canopus</b>	
Large, rich solid yellow with deeper yellow throat .....	.75
<b>Capella</b>	
Tall, very bright orange red .....	.75
<b>North Star</b>	
Rich deep yellow, deeper yellow throat .....	.60
<b>Salmon Beauty</b>	
Deep salmon with rich salmon yellow throat .....	.35
<b>Sirius</b>	
Large, dark salmon with rich throat, ruffled .....	.75
<b>Sweet Orra</b>	
Tall, fine soft yellow with pink line in throat .....	.40

One each of the above for \$4.00

## Primulinus Mixture

A select mixture from the best of the new strains. The most delicate and beautiful pastel tints are found among them, and no other race of Gladiolus contains such a harmonious blending of color.

Per 1000, \$50.00 ; per 100, \$5.00

## Ideal Mixture

Is a selection of the best from hundreds of thousands of A. E. Kunderd's productions. I offer this mixture as being unsurpassed.

Per 1000, \$35.00 ; per 100, \$4.00 ; per dozen, \$0.50

---

## Terms

Remittances must accompany all orders from unknown purchasers, and may be by postal money order, express order, check or cash by registered letter.

No order accepted for less than \$1.00.

On all orders for \$2.00 or over we prepay transportation charges. On orders for less than \$2.00, add postage to cover parcel post charges.

No charge is made for boxes or packing.

---

*Note:* Owing to the damp and unfavorable weather last season, the bulbs are not as large as I should like to have them. I guarantee, however, that under ordinary garden conditions and care they will produce perfect flowers.

The Barta Press, Boston
